

Det 8. Organisk Kjemiske Høstmøte (2003)

“New Trends in Bioorganic and Medicinal Chemistry”

Møtet ble holdt i Ingeniørenes hus, Oslo 31 oktober 2003. Arrangementet samlet 85 deltakere.

Foredrag:

· “Development of Antibacterial Agents Against Uropathogenic E. coli” **Jan Kihlberg**, Umeå University / Astra Zeneca, Sverige.

· “The Development of a new Process for Terbinafine. A Case Study for Route Selection of an Industrial Process” **Gerhard Penn**, Novartis Pharma, Sveits.

· “The use of Positron Emitting Tracers as a tool in drug development- chemistry perspectives.” **Bengt Långström**, Uppsala University, Sverige.

· “Optimized LNA Architectures for Nucleic Acid Targeting” **Jesper Wengel**, University of Southern Denmark Danmark.

· “Tesaglitazar a dual PPAR α /g agonist - from black box to crystal structurecomplex **Eva-Lotte Lindstedt Alstermark**, Astra Zeneca, Sverige.

· “Bioactive Natural Products - Opportunities for Chemical Innovation” **Alois Fürstner**, Max-Planck-Institut für Kohlenforschung, Tyskland.

· “The Discovery and Development of Zyvox(TM), The First Approved Oxazolidinone Antibacterial Agent for Treatment of Serious Gram-Positive Infections.” **Steven Brickner**, Pfizer, USA
