

Det 9. Organisk Kjemiske Høstmøte (2004)

“New Technologies in Organic Synthesis”

Møtet ble holdt i Norges Varemesse, Lillestrøm, 15. september 2004. Møtet inngikk som en sesjon under Det 17. Landsmøte i Kjemi og samlet 73 deltakere.

Foredrag:

- “Enabling Technology for Organic, Medicinal and Combinatorial Chemistry.” **C. Oliver Kappe**, Karl-Franzens-University, Graz, Østerrike
- “Automated Synthesis of Oligosaccharides to Drive Biology and Medicine and Microreactor Systems in Organic Synthesis.” **Peter H. Seeberger**, ETH, Zürich, Sveits
- **Morten Meldal**, Carlsberg Laboratory, Department of Chemistry, Danmark
- “Sonochemistry - a demonstration lecture.” **Tim Mason**, Coventry University, Storbritania.
- “Changing the Rates of Reactions with Ionic Liquids” **Tom Welton**, Imperial College, London, Storbritania.
- “Fluorous Reaction and Separation Techniques.” **Dennis Curran**, University of Pittsburg, USA
