

Det 11. Organisk Kjemiske Høstmøte 2006

Organocatalysis

Møtet ble avholdt på Radisson SAS Airport Hotel, Gardermoen, Oslo, 2. november 2006 i forkant av NFRs KOSK avslutningsseminar. Møtet samlet 55 deltakere.

Foredrag:

- Prof. Alexandre Alexakis. Universite de Geneve.

Bis-pyrrolidine and its derivatives: new efficient organocatalyst

- Prof. Albrecht Berkessel. University of Cologne.

Organocatalysis by hydrogen bonding networks

- Dr. Armando Cordova. Stockholm University.

A biomimetic approach for selective chemistry

- Prof. Pavel Kocovsky. University of Glasgow.

New organocatalysts for the asymmetric reduction of ketones and ketimines
