

Det 12. Organisk Kjemiske Høstmøte 2007

Organofluorine chemistry

Ingeniørenes Hus, Oslo, 19. oktober 2007

Høstmøtet samlet 71 deltakere.

Inviterte foredrag:

- **Dr. Daniele Bonnet-Delpon.** Universite Paris-Sud, Châtenay-Malabry, Frankrike.

Effects of Fluorine-Substitution on Biological Properties of Molecules: Design, Synthesis and Biological Evaluation of Fluoro- Artemisinins.

- **Prof. Thomas Braun.** Humboldt-Universität zu Berlin, Tyskland.

C-F Activation and Derivatization of Fluorinated Molecules in the Coordination Sphere of Transition Metals.

- **Prof. John Gladysz.** Universität Erlangen-Nürnberg, Tyskland.

Fluorocarbon Microenvironments and Phases for Catalyst Activation and Recovery.

- **Prof. David O'Hagan.** University of St. Andrews, Skottland.

The C-F bond as a design tool; from bio-organic to organic materials chemistry.

- **Dr. Niklas Johansson.** Naturvårdsverket, Stockholm, Sverige.

Human exposure to PFOS and PFOA - are we at risk?

- **Prof. Manfred Schlosser.** Ecole Polytechnique Fédérale de Lausanne, Sveits.

How a Lazy Man Synthesizes Fluorinated Building Blocks.
