

Det 13. Organisk Kjemiske Høstmøte 2008

**“Advanced Organic Materials”**

Ingeniørenes Hus, Oslo, fredag 17. oktober 2008 – dagen etter Industry Lecture.

Høstmøtet samlet 56 deltakere.

Inviterte foredrag:

- **Dr. Scott Brown.** Cambridge Display Technology LTD, UK.

*Suzuki coupling and the chemistry of Light Emitting Polymers.*

- **Prof. Cameron Alexander.** University of Nottingham, UK.

*Polymer Switches and Biological Responses.*

- **Prof. Stephen M. Kelly.** University of Hull, UK.

*Synthesis of Liquid Crystal Semiconductors.*

- **Prof. Norbert Moszner.** Ivoclar Vivadent AG, Liechtenstein.

*New organic components for dental adhesives and composites.*

- **Prof. Maurizio Prato.** University of Trieste, Italia.

*Organic Functionalization of Carbon Nanotubes.*

- **Prof. Tanja Weil.** Max Planck Institute for Polymer Research, Mainz, Tyskland.

*Synthesis and in vitro Characterization of Dendritic- and Protein-based Polyelectrolytes.*
